GOVERNMENTS, STOCKS AND BONDS NEW YORK, Sept. 22.-Notwith-standing the heavy outpouring of funds from the treasury into the New York banks last week the gain in the reserve as shown by Saturday's average was so small that the bears were given another opportunity to cry about the scarcity of money. There was a marked lack of unxiety to buy stocks, although there was no apprehension, but what supply of funds would be ample for weeks to come. This long continued apathy of buyers which has been the principal encouragement of the bearish attacks for months again led to the bringing of considerable pressure this morning upon stocks which have been leaders in the market in point of activity of late. There were material losses in the forenoon, extending to 2 per cent., but in the afternoon these osses were increased, notwithstanding some ineffectual efforts to rally the market. North American, which seems to have no support whatever, was a spe-cial object of attack, and before its lowest point was reached over 4 per cent. had been topped off of its value. The rest of the list sympathized, and the lowest prices of the day were reached in the last hour. The close was quiet, but weak, at about the lowest prices of the

Railroad bonds were again dull. Governments dull and steady. State bonds dull.

sale all druggists, buc.

Preston's "Hed-Ake." Hon. W. H. Crain, member of congress from Texas, writes: "It affords me pleasure to add my testimony to that of hundreds who have ex-perienced relief by the use of your wonderful "Hed-Ake." Cures in fifteen minutes. For

Boston Wool Market, Special to the Gazette.

BOSTON, MASS., Sept. 22 .- Wool selling pretty well at previous prices.

As a meritorious cough medicine Marsden's Balm heads the list. I nave sold a great deal of it in the last few years, and those who once use it will have no other. It outsells any other by four times. John T. Bars, Hope, Ark.

MANSFIELD.

A Thriving Tarrant County Cotton Mart-Bust ness Lively-A Bank Badly Needed.

Correspondence of the Carette. MANSFIELD, TEX., Sept. 20 .- Mansfield boasts of being one of if not the best cotton market in Northwest Texas. Receipts to date, 1000 bales, with an increase daily of 75 to 100 bales, and the

ruling price paid 91/2 cents.

The large and commodious brick buildings of Pyles & Morison and J. W. Squires, as well as the handsome residences of Dr. J. T. Stephens and Thom-as A. Fisher, are nearing completion,

which add greatly to the appearance of In a few days we shall put on city airs,

as we have voted incorporation, and will elect city officers on Saturday, the 27th. The citizens of Mansfield and vicinity, feeling the need of a first-class school building, have elected the following gentlemen as a building committee, with instructions to commence work at once: R. S. Moon, A. B. Pyles, A. J. Dukes, J. H. Harrison, J. A. Blessing, J. A. Graves, Joseph Nugent, W. A. Up-chirca, E. D. L. Tims, S. S. Smithee and J. B. Chorn. In a short time we expect to have school facilities second to none in the great state of Texas, as we now have funds aufficient to run an

eights-mouths' school. The necessary amount has been raised to build a Baptist church, and a subscription list is now being circulated for funds to erect a Methodist church. All we need now to make Mansfield a

little Fort Worth is a bank, and the business men and citizens of Mansfield and vicinity will give an enterprise of this kind their heartlest support.

Collections are reported by our business men as being first-class.

For Inchriety

Use Horsford's acid Phosphata-Dr. John J. Caldwells. Baltimore, Md., says:
"It has presen by experiment and experience to

RESERVATION CHILDREN.

Some of the Mothers Refuse to Give Up Their Little Ones-Trey will Find Romes in Private Families.

Special to the Gazette.

WACO, TEX., Sept. 22 .- It is expected that some resistance will be met when the authorities undertake to remove the little girls from the reservation. Some of the women who have children there are not willing to give them up, and the question will be raised as to the authority of the city or anybody to take their children away from them. These fallen women are not willing to be separated from their little ones, even that they might be saved from a life of girls at the county poor house was only temporary, that is, it was for a tempor-

ary home for the children, the authorities believing that permanent homes could be secured for them in private families. Their surmises seem to have been correct, for already charitably inclined people from a distance are sending inquiries regarding the matter. County Judge Jenkins received a letter this morning from a well to do gentleman in Anson, Jones county, proposing to take one of the little girls to raise. educate and make her life valuable and useful. The gentleman had read in THE GAZETTE an account of the proposed disposition of these unfortunate children, hence his proposition. All Waco is hoping that the endeavors of the city council in this regard will prove successful.

Cure Tour Corns. By using Abbott's East India corn paint For corns, bunions and warts it is great. For sale by L. M. Whitsitt & Co.

AFTER TWENTY-EIGHT YEARS.

The Remains of Capt. Charles Harrison Brought from Tenness e and Interred at Sherman-

Special to the Gazette. SHERMAN, TEX., Sept. 22 .- To-day the bones of Capt. Charles Harrison, who died from exposure twenty-eight years ago, while on the staff of Gen. Heath, were laid away in the cemetery in this clty by his brothers, J. P. Harrison of Sherman, and Geo. Harrison of Marshall. The location of the grave, which was near the roots of an apple tree in West Tennessee, was lost until about one year ago, when George was back to the old scenes of childhood. He by in war with the deceased brother, who believed he could find the sacred spot so dear to the family. A reward was offered and search instituted. when at last the roots of the dead apple tree were found in a field. They dug into the ground and found the body, deposited twenty-eight years ago. George returned and a few weeks ago ordered the remains sent to Sherman. No word was received that the remains had arrived and a tracer was sent out, which resulted in locating a small box in one of the express offices in this city, which had been here one month. The contents were not known to the express agent during this time. The non-delivery was caused by wrong initials. The remains were placed in a new grave with all the tenderness one brother can bestow upon another.

Beecham's Pills act like magic on a weak

Meridian's Delegates to Fort Worth.

Correspondence of the Gazette. MERIDIAN, TEX., Sept. 21 .- In answell to a call from the Fort Worth chamber of commerce a large and enthusiastic meeting of the citizens of Meridian couvened at the bank building on Saturday the 20th, to select delegates to the con vention to meet at Fort Worth on September 24. On motion of S. H. Lump-kin, H. M. Dillard was called to the chair and explained that the object of the convention at Fort Worth was for the purpose of putting upon foot the best and most effective agencles for developing the manufacturing and mercantile interests of the state, and that in pursuance of the ultimate purposes of the convention it would be necessary for by her best commercial and industrial talent. The following delegates were then selected to represent Meridian: J. J. Lumpkin, J. A. Rudseill, J. W. Adams, Harry B. White, P. B. Ward, Jno. E. Rahl, H. S. Dillard, L. C. McCandless, Vic. B. Wilson, S. H.

Lumpkin. Judge J. B. McLeary, ex-attorney-general of Teras and past grand master of Masons, says; "It (Hed-Ake) is the best medicine for headucine I over saw." Cures any headache. For sale all druggists, 50c. Preston's "Hed-Ake."

ON 'CHANGE.

Spot Cotton Unchanged; Futures in Some Cases Higher, in Others Lower.

Wheat Opened Lower, Fluctuated Widely and Closed at an Advance-Coffee and Wool Markets Unchanged.

> Daily Review. OFFICE OF THE GAZETTE, FORT WORTH, TEX., Sept. 72, 1890.

Retallers report an unusually brisk trade to-day in all departments. There were a great many people from the surrounding country in the city, who came to buy, they taking advantage of the wet weather to leave their farm duties to come to the city to make needful purchases. Quite a variety of country produce was disposed of, and the market in this line was quite well supplied. The general city markets show but lit-tle variation in quotations.

Wholesale grocers report a firm mar-

ket, and say trade with them is moving

nicely, both for the city and out of town. Dry goods, hardware and builders' supply dealers (wholesale) report an unusually good trade, and are, too, making some big shipments.

All commodities are as revised.

The Western Grain Crop. The Cincinnati Price Corrent says: In various localities in the West there has

been frost of more or less severity within the past week, but our correspondence does not suggest that injury resulted therefrom to the corn crop to an appreciable extent. Much of this grain is still in a condition to be susceptible of great injury from hard freezing, but light frosts now would promote the curing process. Our correspondence this week includes many expressions indicating improvement in corn during the past month, but a careful consideration of all the evidence suggests that the improvement observed is not so much a matter of evident gain in yield as in arresting the tendency to impairment of yield in the larger num-

ber of instances. .

The week's correspondence furnished additional evidence of enlargement of winter wheat area for the coming season, and the seeding is well progressed under The arrangements with favorable conditions. In limited areas the county judge for a home for these seeding has been delayed by excessive

Until the final estimates of the government are available the wheat crop may be estimated as approximately 400,000,-000 bushels-about 55,000,000 Pacific coast states and 345,000,000 for the Atlantic division of the country. The aggregate requirement for the year, if the rate of consumption should be equal to recent years, will be approx-imately 360,000,000 bushels, including consumption and seeding. Of this quantity the Pacific coast represents about 20 .-000,000 and the Atlantic states 346,-000,000. This calculation implies nominally 5,000,000 bushels of Atlantic wheat surplus from this year's crop, to which probably about 20,000,000 of previous production may be added, making the Atlantic exportable surplus 25,000,-000 bushels. This is the theoretical posttion and it is not likely that this quantity can be much enlarged without corresponding reduction in domestic consumption. The Pacific coast may be counted on as having about 35,000,000 bushels available surplus from the crop and 5,000,000 from reserves-or a total of 40,000,000.
